Are You Tuned to the Right Station?

George Washington Carver was a man who lived very close to God's creation. As a youngster he was very interested in plants and experimented with natural pesticides, fungicides, and soil conditioners, earning the nickname "the plant doctor" for his ability to improve gardens, fields, and orchards. Later as an agricultural scientist and inventor, he developed hundreds of products using peanuts, sweet potatoes, and soybeans.

Carver's observation and study of nature led him to say, "I love to think of nature as an unlimited broadcasting station, through which God speaks to us every hour, if we will only tune in."

One cannot help but to be in awe of the magnificence of God's creation. From the largest

structures like galaxies and solar systems, to the smallest building blocks of the subatomic world, order and design are seen throughout.

This is what motivated David to exclaim, "The heavens declare the glory of God; and the firmament shows His handiwork" (Psalm 19:1), a declaration that proclaims God is powerful, creative, and in control.

You can hear these messages throughout this beautiful world and universe, if we will but open our ears. Are you listening?

Family News

Bible Classes: The elders are working towards starting Bible classes back up June 6th. If you have not been contacted by your care group leader to find out what worship service your family will be attending and whether your family will be attending Bible class, please let your care group leader know by today.

Teachers Needed: In conjunction with Bible classes starting back up, we are in need of teachers and teachers' assistants in both the 2 & 3 year old class and 3rd & 4th grade class. This would be for the summer quarter, but could possibly be for longer. Please see Gene McCaul if you would like to help out.

Graduating Seniors: We will be collecting money for our graduating high school seniors. They are Elizabeth Nighswonger, Jacob Kile, and Justus Konwent. We will be honoring them sometime in June. Donations can be given to Carolyn McCaul or Shannon Dacca, or you can utilize the electronic options for donating. Remember to put in the memo portion "Graduating Seniors."

Family News (cont.)

Congratulations: We want to congratulate the following members for graduating from their studies: Ashley Vizguerra will be graduating this June with a Bachelor of Science degree and a minor in Psychology & Administrative Management (magna cum laude). Steven Konwent graduated with a Bachelor of Science in Mechanical Engineering (cum laude) and Abigail Konwent with a Bachelor of Fine Arts in Graphic Design (cum laude). Congratulations to the graduates!

Care Package: Shannon Dacca is collecting items, during the month of May, for a care package to send to Nick Gleim, who is deployed overseas for the year. If you would like to help by donating any of the following items, it would be greatly appreciated: playing cards, puzzle books, wet wipes, Crystal Light drink mix packets, sunflower seeds, trail mix, hard candies (no chocolate; it melts), beef jerky, protein bars (such as CLIF bars), or ground coffee. Also, if you would like to write to him, please see Shannon Dacca for his address.
