Do You Have the Time?

Why does it seem that time plays a cruel joke on us? When we are children it drags on forever and when we are adults there is never enough of it. Supposedly there is a real reason for this.

Now if you are like me you may have said, "Well another day has gone by and I didn't use Algebra at all." Take that math teacher! However, if I did better at Algebra and higher math I may understand the equation that helps prove time really does fly by.

At one year old, in terms of percentage this is one hundred percent of your life. Age two represents fifty percent and by the twentieth year of your life, five percent and it goes on from there. Each year is less and less of our entire life span and the idea that it is going by faster is really quite true.

Time does really fly by the older we get, my parents were right about that one. Because of that, we try to find a way to free up the all the time we can for the important things in life (Eph. 5:16). In a way that is what we hope to accomplish with "My Greater Purpose." We hope to give you the tools needed to

further your walk with God. Tools that will allow you to grow and develop the gifts God has given you and find your place in the work of furthering the Kingdom of God.

Some of you have taken Spiritual gift surveys before, some have taken the personality surveys in the past, and some have even asked the question where is my passion to serve? Here is a chance to connect all these together. Join us as we hope to free you up by empowering you with the tools you need to serve God more effectively and powerfully in the coming year.
